Subject index

AAQA/ACHS National QA database; 12 month update 99
abdominal hysterectomy; compared to laparoscopic hysterectomy 121
accident and emergency department; patient dissatisfaction in a paediatric 137
accredited health-care facilities 58
adolescent psychiatry; patient satisfaction and quality assurance of 51
aged care; maintaining quality in institutions 187
alcohol withdrawal; quality assurance in the management of 195
audit
  of childhood febrile convulsions 111
  of the actual and potential utilization of autologous blood 65
  use of fresh frozen plasma 77
Australian council on healthcare standards; surveyor recommendations 167

blood, autologous; actual and potential utilization of 65
blood transfusion; of fresh frozen plasma 77

casemix, non-acute; in the Illawarra 23
child abuse; survey of parents' responses to the referral process 207
child psychiatry; patient satisfaction and quality assurance of 51
clinical indicators
  development of, for physiotherapy management of low back pain 9
  in evaluating health care 157
complaints; reflecting patient dissatisfaction in a paediatric accident and emergency department 137
complications; arising after surgery in NSW hospital 157
Croup; lateral radiograph of neck in 39

day-only patients; readmissions of, in NSW acute hospitals 31
diabetes; quality management in 225

editorial 1, 63, 119, 175
educational interventions; and the use of parenteral nutrition 131
elective surgery; and ability to donate autologous blood 65
epiglottitis; management of, in paediatric intensive care unit 17

febrile convulsions, childhood; initial hospital management of 111
functional independence measures; as predictors of staff time involvement 23
functional independence scores; at admission and discharge from an inpatient rehabilitation unit 145
geriatric medicine; incorporating peer review into 3

Haemophilus influenzae; and management of epiglottitis 17
health care
  evaluation of, using hospital separation data 157
  quality of 99
health facilities; quality management and progress of 207
health care services; and the implementation of quality management 45
health education units; quality management in 217
hospital management; of childhood febrile convulsions 111

institutions; quality of aged care in 187
intensive care unit; management of epiglottitis in 17

laparoscopic hysterectomy; compared to abdominal hysterectomy 121
laryngo-tracheo-bronchitis; lateral radiograph of neck in 39

management
  of acute laryngo-tracheo-bronchitis in children 39
  of acute low back pain 9

medical services recommendations; of the Australian Council on Healthcare 167
morbidity, surgical; in the North Coast Health Region 103

National Non-Acute Inpatient Casemix Project; development of 23
non-acute casemix; in the Illawarra 23
nutrition support; consensus statements about the need for 131

occurrence screening; use in medical quality assurance methods 85

pain
  leg and/or foot; in vascular surgery patients 149
  low back; developing indicators for physiotherapy management of 9
parenteral nutrition forum; as a useful tool for deriving usage guidelines 131
patient dissatisfaction
  in a paediatric accident and emergency department 137
  in child and adolescent psychiatric services 51
peer review; of clinical work and quality assurance 3
physiotherapy;
  for management of acute low back pain 9
  of patients with persisting leg and/or foot pain following vascular surgery 149
plasma, fresh frozen; audit of use in a tertiary referral hospital 77
podiatry; of patients with persisting leg and/or foot pain following vascular surgery 149
postoperative pain; in vascular surgery patients 149

quality assurance
  AAQA/ACHS database in 99
  and incorporating peer review into clinical work 3
  applied to laparoscopically assisted vaginal hysterectomy 121
  Australian Council on Healthcare Standards survey on 167
  for day-only patients 31
  for inpatients determined by local analysis of uniform data set data 145
  in child and adolescent psychiatric services 51
  in medicine and review of methods used 85
  in the management of alcohol withdrawal in hospital 195
  in the reporting of cases of child abuse 207
  in use of fresh frozen plasma 77
quality improvement teams; statistical tools for 177
quality maintenance; of aged care in institutions 187
quality management
  and the progress of health facilities in Australia 207
  for health education units 217
  in a diabetes unit 225
  trials, tribulations and achievements of implementing 45
quality of care; determined by a survey of hospital separation data 149

radiography; of neck in laryngo-tracheo-bronchitis 39
readmission rate; of day-only patients 31
recommendations of Australian Council on Healthcare Standards 167
resource utilization groups; as predictors of staff time involvement 23

social work; survey of parents' responses to the child abuse referral process 207
statistical tools; for quality improvement teams 177
surgical procedures; and morbidity 103

total quality management; use in medical quality assurance methods 85

uniform data set; for analysis of inpatient quality assurance 145

variation; using statistical tools to understand 177
vascular surgery; a survey of persisting leg and/or foot pain in patients after 149

walkout; from an accident and emergency department 131
